**GERMANS MENACED
ON BOTH FLANKS BY
THE ALLIED ARMIES****French and British Gain Im-
portant Vantage Points
in Somme.****TEUTONS ARE HARD PRESSED****In the East General Pflaeger Is Cut Off
From General von Bothmer. But
Desperate Fighting Is Put Up by
Both Sides; Verdun Attack Renewed.**

LONDON, July 12.—Although the extent of ground which has been gained by the British offensive is not great, there is general satisfaction in England at the success attained by General Haig during the 12 days of fighting, and the belief exists that the advantageous position now occupied will make possible greater achievements.

The capture of Contalmaison, Mametz and Trones wood gives the British a line running along due east and west so that the Germans to the north can be attacked on the flank when the guns are brought up for the second phase of the operation. To the south of the river the French are in a position somewhat similar to the British and likewise can attack the German flank south of Belloy and Estrees. For the moment, however, the two armies are engaged in preparing their new position.

Meanwhile the Germans, renewing the attack on Verdun, have captured Damloup battery, which they held for a time at the beginning of June. This position is the point furthest from Verdun in the French line of defense, so that its loss is not taken seriously by the French command.

In the east the Russians are engaged in heavy battles in the extreme northwestern corner of Bukovina, where they are inflicting further defeats on the army of General Pflaeger, now cut off from General von Bothmer's forces to the north, and also along the Stokhod river, where the Austrians and Germans are putting up formidable resistance. The Stokhod is a shallow river, but marshes on either side impede movements of troops and guns.

Across the river fighting is in progress near Svidnik, while to the southeast another force is advancing on Kovel.

FRENCH RECOVER LOSSES

PARIS, July 12.—The Germans delivered two attacks last night on a French position in the neighborhood of Dend Mar Hill on the Verdun front. The war office announcement today says that both these assaults failed, breaking down under French fire. East of the Meuse the French retook part of the ground won yesterday by the Germans.

In the operations east of the Meuse the French took 80 prisoners, one of whom is an officer.

There were no developments last night on the Somme front.

The French conducted successful raids in the Champagne and in Lorraine.

GERMANS GAIN GROUND

LONDON, July 12.—The Germans heavily reinforced, delivered strong attacks against the British on the Somme front last night. They gained ground in Mametz and Trones woods. An official statement issued here this afternoon says that all the German attacks were beaten off except in Mametz and Trones wood.

RUSSIANS DRIVEN BACK

BERLIN, via London, July 12.—Russian troops which attempted to establish themselves on the left bank of the Stokhod river in the advance toward Kovel, were attacked by German troops and defeated, the war office announced today.

BID HIGH FOR BERTHS

Deutschland offered as much as \$50,000 to take one passenger.

BALTIMORE, July 12.—The North German Lloyd has received from persons in all parts of the country offers running as high as \$50,000 for the privilege of taking passage on the German submarine Deutschland on her return trip.

"We have had letters from some persons," said a representative of the company today, "who said that they would pay any price we wanted. There was one \$50,000 offer, and several of \$10,000, and virtually scores running from \$1,000 to \$5,000. These we have had to refuse. Nearly all of them came from Americans. There are, of course, thousands of Germans in this country who would like to get back to their native land, but so passengers will be carried."

Catch Fine String

A party of Maryland fishermen, including Harry Marlette, T. Marlette, Lawrence Saylor, Charles Clotfey and Thomas Clotfey, motored to Somerset yesterday in Thomas Clotfey's car, returning home last night with a string of fine fish. This morning the party enjoyed a fish breakfast.

Waters Heating

Harry Moore, charged with drunkenness and non-support by his wife, was arrested before Alderman Donagan this morning and gave \$500 bail for appearance in court.

**SUBMARINE BOMBARDS
ENGLISH COAST TOWNS****Seaham Harbor, Unprotected, Shell-
ed; One Woman Killed, House
Struck.**

LONDON, July 12.—The English port of Seaham Harbor was attacked last night by a German submarine. About 30 rounds of shrapnel were fired.

One woman was killed by the bombardment. One house was struck by a shell. The official announcement says:

"At 10.30 last night a German submarine appeared off the small undeveloped port of Seaham Harbor on the North Sea, 6 miles southeast of Sunderland and a coal shipping port. She approached within a few hundred yards of the town and then opened fire."

"Some 20 rounds of shrapnel were fired from a 3-inch gun. Twenty rounds fell in the direction of Daitouale. A dozen rounds fell in and about Seaham colliery."

"A woman walking through the colliery yard was seriously injured and died this morning. One house was struck by a shell. No other damage was done."

NO FILIBUSTER

Republicans Agree Not to Block Congressional Program.

WASHINGTON, July 12.—Democratic and Republican Senate leaders today agreed on a program that promises adjournment of Congress before September 1. The Republicans will oppose, but will not filibuster, on either the shipping or revenue legislation.

The Democrats submitted and the Republicans agreed to the following program:

Appropriation bills and conference reports, the revenue, shipping and tariff bills to come to vote.

In a secondary list, the Democrats included child labor, workmen's compensation and immigration bills, but they were left for further conference and eventually may be postponed until the winter session.

The conferees also agreed on daily sessions from 10 a. m. to 6:30 p. m., and the Senate later ratified that plan.

RAINY MEN MEET

They Enjoy Dinner at Summit After Discussing Business.

Superintendents and other officials of W. J. Rainey met yesterday in Uniontown and after transacting business of a routine nature adjourned to the Summit for dinner.

Those who attended the meeting were: L. L. Willard, general superintendent; John Stoeck, assistant superintendent; John Farrell, purchasing agent; R. D. Davis, claim agent; Ben Holliday of Allison; C. Patterson of Revere; A. A. Mitchell of Vanderbilt; I. T. Miller of Royal; E. B. Martin of Meyer; J. T. Harshman of Mount Bradlock; J. N. Alexander of Aerie; and George F. Chambers of Elm Grove.

TO GUARD SECRET

U. S. Will Try to Protect Deutschland's Departure.

WASHINGTON, July 12.—If news of the departure of the German underwater liner Deutschland can be regarded as military information of value to Germany's enemies, the United States in the interests of neutrality will take steps to prevent such information reaching them.

State Department officials today admitted they were considering the question of how to protect the government's neutrality in the matter.

GUTHALS RESIGNS

Will Return as Governor of Panama Canal Zone.

WASHINGTON, July 12.—President Wilson agreed today to accept the resignation of Major General Guthals as governor of the Panama Canal at an early date, to be fixed by the general.

Colonel Chester Harding, now engineer of maintenance in the Canal Zone, probably will be appointed governor.

Enters the Hospital

Eleanor Harrison of Connellsville, four years old, was admitted to the Cottage State Hospital for surgical treatment of the right leg.

THREE DYNAMITE CHARGES**ENDANGER PENNSY TRAINS;
WRECK PLOT, SAY POLICE**

ALTOONA, Pa., July 12.—Pennsylvania railroad detectives are investigating today what appears to have been a deliberate attempt to either destroy railroad property or to wreck trains at Bellwood, 7 miles east of here, late last night and early today.

Shortly before midnight, while a local train from Harrisburg was passing a water station west of Bellwood station there was a terrific explosion and an investigation revealed that a heavy charge of dynamite had been put off with a time fuse.

Later railroad detectives and signmen found 36 sticks of dynamite done up in packages containing 8 to 12 sticks each, with fuses attached. They were scattered over the four tracks and some of the explosive was found in a water trough between the tracks.

Shortly before 2 A. M. there was a second explosion about 150 feet from the Bellwood station. Still later there was an explosion of dynamite in two passenger coaches which had been started for the night on the Bellwood division tracks of the Pennsylvania at Bellwood. One of them was so badly damaged that it is unfit for service. Investigation showed that the dynamite in the cars had been set off evidently with time fuses.

Patrols were immediately sent out by railroad officials and all stations on the Middle Division were notified to be on guard.

All trains east and west were held up until the tracks were cleared.

It was reported early today, but not confirmed, that the dynamite was planted by two men dressed as women, with the aid of accomplices hiding beneath a culvert where an explosion occurred.

The first explosion tore a hole 18 inches deep in the ballast, but did no material damage to the tracks.

**CONNELLVILLE
COAL RATE CASE
COMES UP TODAY****Was Postponed to Allow the
Ohio Operators to
Intervene in****THE WEST VIRGINIA RATE CASE****Scope of the Rate Inquiry Likely to
be Broadened to Include the Whole
Eastern Bituminous Producing Area;
Connellsville Case in Good Shape.**

Special to The Courier.

ATLANTIC CITY, July 12.—The hearing before the Interstate Commerce Commission on the complaint of the Connellsville Coal Tariff Association against the unreasonable rates of the differential against the Connellsville coke region in freight rates on coal, which had been fixed for today, was postponed until tomorrow because of the time consumed in a hearing on the petition of the Ohio coal operators to be allowed to intervene in a separate proceeding brought some months ago by the West Virginia Coal Operators' Association to prevent the proposed increase of 15 cents per ton in the rates to central freight association territory.

The Lake Carriers' Association, the Cleveland Pulp Company, the Chamber of Commerce of Ashtabula, O., the Manufacturers' Association of Erie and other bodies also presented petitions asking leave to join with the West Virginia operators, the Pittsburgh Coal Company and other interests in Virginia, Western Pennsylvania, Maryland, Eastern Kentucky and Northern Tennessee in opposing the proposed increase in rates.

The Ohio operators made a determined fight to maintain the advantage which they already enjoy through the recent decrease in rates from the Rocking Valley combined with the existing differential, against the Connellsville region. Their petition was heard by Examiner C. L. Marshall who is sitting for Commissioner Julian Clements. H. N. Griggs, the Cleveland agent of the New York Central lines, appeared as the railroads' witness. Under cross examination by Francis B. James of Washington, attorney for the southern coal operators, Agent Griggs made the admission that the proposed increase in rates to the central association territory is the direct result of the recent interstate rate decrease made effective by the Ohio State Commission, and said that the present move had been made to forestall a decrease in Ohio by getting a prior decision from the Interstate Commerce Commission on interstate rates. Now that the movement has failed the railroads are trying to get the Interstate Commerce Commission to specify what the Ohio differential shall be. The witness said that the railroad feel that Ohio has too much influence on railroad rates. On the other hand the Ohioans declare they are here to defend themselves against action that will assuredly kill their coal trade.

The examination of Agent Griggs and other witnesses consumed the greater part of the day, hence it was impossible to reach the Connellsville case. Examiner Marshall announced that he would give a decision tomorrow on the intervening petition of the Ohio operators, then take up the Connellsville case.

If the petitioners who appeared before Examiner Marshall today are allowed to intervene in what is known as the "Pittsburgh Cent. Advance Case," the scope of the coal rate inquiry will likely be broadened to include the whole territory from Tennessee to the Great Lakes and call for a complete adjustment in the rates from all districts and a possible re-districting of the bituminous coal producing fields of the Eastern United States.

The executive committee of the Connellsville Coal Tariff Association held a meeting here on Monday at which the attorneys, traffic experts, statisticians and map makers were present. The details of the case were thoroughly gone over and a final inspection made of the exhibits, tables and other data. Everything was found to be in excellent shape and in complete readiness for the hearing which was called for 10 o'clock this morning.

**BROUGHT DYES SO
ELKS COULD PAINT
THE OLD TOWN REEL.**

Chief Rottler today claimed to have been advised of the reason the Deutschland came across at this time.

"You see," the chief explained, "those Elks down at Baltimore want to paint the town reel and they didn't have any dye, so the Deutschland just had to bring some over for them."

**BORDER HEAT KNOCKS
OUT NORTHERN SOLDIER.**

Despite the army surgeons' precautions and the generally excellent conditions of the camps in Texas it is difficult to prevent all heat prostration. Cases are not numerous, however. Picture shows a heat stricken soldier receiving attention from a comrade.

Lafayette school is vacant.

RED-HEADS PATRIOTIC

Bricktops Organizing Volunteer Brigade at Brownsville.

Fayette county enthusiasts are organizing the only "red-headed" volunteer brigade in the country. Somerset and Greene county brick-tops will also be included.

H. H. Baer of Brownsville, and C. D. Harader of Uniontown, originated the idea. Already 28 applications are said to have been filed in Brownsville. Local men with flame colored tresses have not yet been approached with requests to join the brigade.

Drowns in Monongahela

While attempting to swim across the Monongahela river yesterday, George Steen, 25 years old, a Bulgarian, of West Brownsville, was attacked with cramps and was drowned. His body was recovered four hours later.

Bills to be Transferred

NEW YORK, July 12.—Cornelius N. Bliss will be the next treasurer of the Republican national committee. This was officially announced today at the headquarters of Charles E. Hughes.

Guarantors Meet

The Chattanooga guarantors met last night. The method of ticket distribution was not decided upon. The guarantors will meet again Thursday evening.

Case of Scarlet Fever

Eldred Conway, six years old, has been reported ill with the scarlet fever. He is the son of T. L. Conway of Gibson and Woodlawn avenues.

Leaves the Hospital

J. R. Marshall of Broad Ford, who was run down by an automobile, left the Cottage State Hospital yesterday.

Repairing High School Roof

The roof of the high school is being repaired. The tile is being painted and some of the slate replaced.

No Drill

The drill of the home guard company was called off last night on account of the heat.

EL PASO, Tex., July 12.—Two battalions of Pennsylvania Infantry, one of the Second and one of the Tenth, broke camp here today and prepared to enter for Marathos, Tex. It was announced at military headquarters that the state troops had been ordered to reinforce the regulars at the Big Bend district.

The orders followed closely reports from the district that Mexican bandits had raided the Lamula mine, an American property about 100 miles south of the border, and that residents along the frontier near Brownsville, Tex., feared the outlaws were moving north.

Belief was expressed in military circles that it was this band General Carranza reported to when he warned the State Department that he was informed that Villa bandits were moving north from Jimenez with the intention of attacking the American border.

Marfa, Alpine or Marathon is the rumored railroad destination. It is probable two Pennsylvania regiments selected for the first real service along the border will land at Marathos. From there the troops will proceed by motor trucks a distance of 92 miles to the Mexican border.

The Pennsylvania boys are moving into a country where water holes are 75 miles apart, and communication to the outside world a matter of days, not minutes. Field telegraph stations will have to be established and the lines of communication, as those created by General Pershing, constructed. Colonel Corlier of the Tenth received his orders like the real soldier that he is. Upon receipt of orders he immediately demanded a more complete set of equipment than his regiment has. Shoes, blankets, rolls and other necessities were requisitioned from the quartermaster's department, and in a few hours the boys of the Tenth were ready to entrain for the first stage of their journey to the border.

SAN ANTONIO, TEX., July 12.—Four

troops of the Texas cavalry, now at Laredo, were today ordered to proceed to the Big Bend district to augment Colonel Gaston's command. Two battalions of Pennsylvania troops will be sent to Colonel Gaston from El Paso.

Very few applications for discharge from the national guard branch of the army as a result of the permission for those having dependent relatives in withdrawal have been received at headquarters.

CHIHUAHUA CITY, Mex., July 12.

Heavy fighting is in progress between de facto government troops under General Ernesto Guevara and a large force of Villa bandits at Cerro Blanco, a few miles below Parral, according to dispatches received today by General Trevino.

General Garcia reported that he was engaged in holding the bandits until the forces under General Ramos and General Arista, which are proceeding from Jimenez, arrive.

COLUMBUS, N. M., July 12.

Americans living in Chihuahua and other cities in Northern Mexico are wearing small British flags to ward off insults to themselves and their nationality, according to a report brought here today from Mexico.

Br O. R. Horwick Staff Correspondent

EL PASO, Tex., July 8.—The Tenth regiment arrived in El Paso this morning and is now busily engaged in building its new house. The sun is blazing heavily and the temperature is away up but there is a good breeze blowing which alleviates the intense heat some.

We are located at the very foothills of the Big Bend.

**BAREFOOT BOYS PICK UMBEL
TO HANDLE COMING CAMPAIGN****Former Judge the Choice for County
Chairman, Unless He Declines
the Honor.****Special to The Courier.**

UNIONTOWN, July 12.—Former Judge R. E. Umbel probably will be elected chairman of the Democratic party in Fayette county at a meeting of the Democratic central committee to be held next Saturday afternoon. The former judge is the most talked of candidate, and in fact is the only name that is being talked of by the "leaders" at the county seat. He was county chairman in 1908, and was successful in electing part of the Democratic ticket. If Judge Umbel's name is presented to the convention Saturday there will be no opposition to his election as chairman. It is not unlikely, however, that before Saturday he may decide not to permit his name to go before the convention.

Little interest is being taken by the Democrats in the committee meeting, and it is doubtful if there is a very large turnout unless Collector of Internal Revenue C. Gregg Lewellyn is called in from Pittsburg to get busy and get out the committeemen to the convention. It is generally conceded that the New Freedom faction of the Fayette county Democracy controls the county committee, and no effort will be made by the Old Guard to control the convention.

Ex-Congressman Wooda N. Carr, the present chairman, will not permit his name to go before the convention as a candidate for re-election. He has had enough of being the goat, and desires no more of it.

Of course, the regulations are already prepared. They will be the usual thing—denouncing Mr. Hughes, Colonel Roosevelt and the Republican party, and lauding the White House school master "for keeping us out of war." It is unlikely that the resolutions will have much to say of the President's Mexican policy since more Americans have been killed by Mexicans than were killed in the Spanish-American War while Mr. Wilson still waits.

LAKE ERIE MEN ADVANCED

Commercial Agent Glover and Chief Clerk at Brownsville Promoted.

The freight traffic of the Pittsburgh & Lake Erie's Fairmont business has assumed such proportions that it has been found necessary to advance the grade of the Brownsville agency, through which the business has been handled.

With the elevation of the office to a higher grade comes the announcement of the advancement of J. W. Glover, the efficient traveling freight agent, to commercial agent, and of his chief clerk, R. S. Bolig, to traveling freight agent. The new arrangement will not only increase the business of the office, but expedite the movement of traffic for West Virginia points.

CONTRACT IS LET

Monarch School Will be Built by a Local Concern.

The Dunbar township school board has let the contract for the construction of a new school building at Monarch to the Connellsville Construction Company. The bid was \$22,500. There were five other bidders.

The new building will consist of eight rooms and is to be of brick with stone trimmings. It will be equipped with the best and approved type of lighting and mechanical heating and ventilating system. The plumbing, heating and wiring are not included in the contract proper.

MADE EARLIER HAUL

Robbers at Dickerson Run Visit Quarters of Italians.

The two men who robbed the store of Mrs. Walter Rathburn at Dickerson Run yesterday, it has been discovered, made quite a haul before visiting the Rathburn confectionery store. It is presumed that before entering the store, which is at the end of the street car line, the robbers went to the Italian quarters west of the yard office, where they secured money and clothes.

A number of foreigners have been staying at this place. They were robbed of a large sum of money and their pay clothes. Several suits of clothes were also missing, and later in the day some of the men found a pile of old clothes, which the thieves had evidently discarded in favor of the ones taken at the Italian shanties. No clues were found in the clothes.

BAND CONCERT PLEAS

Miss McConnell Very Successful in Her First Appearance as Soloist.

The Connellsville Military Band gave a concert last night at the band stand and it was representative. The band numbers were pleasing.

Miss Mary McConnell appeared as soprano soloist. Miss McConnell's voice is strong and of the dramatic type, and especially fitted for open air singing. Her perfect rendition of Riego's "Oh Dry Those Tears" charmed the big crowd and she was called upon for an encore.

Master Eugene Casterline sang "Memories" and a ragtime song to the delight of the crowd.

DOCTORS WILL PICNIC

Annual Outing Is to be Held at the Summit Tomorrow.

The annual picnic of the Fayette County Medical Association will be held tomorrow at the Summit Hotel. About 90 will attend. While no formal program has been arranged for the day, bowling, rifle shooting and horseshoe playing will be among the amusements.

Dinner and supper will be served at the Summit Hotel. The committee in charge of arrangements is as follows: Dr. C. H. LaClair and Dr. George B. Robinson of Uniontown, and Dr. R. H. Jeffrey of Rainey.

FIRST CASE OF INFANTILE**PARALYSIS IS REPORTED IN
EVERSON, A FOREIGN CHILD**

The first case of infantile paralysis to be reported from Fayette county comes from Everson, where the small son of Alex Stachowick is the victim. According to reports from Harrisburg there are now 10 cases in the state, four of them having been reported yesterday.

Every precaution is being taken in Everson to prevent a spread of the disease. Dr. M. A. Noon has charge of the case and established a strict quarantine.

Dr. Noon stated to The Courier today that both legs of little Raymond Stachowick were paralyzed. His condition is regarded as serious. Immediately upon diagnosing the case as infantile paralysis, Dr. Noon reported it to the state department of health at Harrisburg, in order that the proper steps might be taken both to treat the child and to prevent other children from becoming infected.

SCOTSDALE THERE WAS A REPORT

of an infantile paralysis case, but Dr. J. P. Strickler, who was summoned, did not diagnose it as such. "The child reported ill is very small. The development of its symptoms is being closely watched."

At noon today Dr. Strickler stated that there was not a symptom that indicated infantile paralysis and he was confident the baby was not suffering from that disease.

NEW YORK, July 12.—Despite the

worst heat wave of the season the epidemic of infantile paralysis took a turn for the better today. During the 24 hours preceding 10 o'clock only 17 deaths were reported in the five boroughs. There were 265 new cases.

An absolute quarantine against New York children under 16 years of age was put into effect and rigorously enforced in New Jersey today.

Backache Just Like a Toothache!

Dear Mr. Editor.—Sometime ago I had backache very bad; it would ache just like a toothache. I tried a new discovery of Doctor Pierce's, called "Anuria." This is for kidneys and backache. I soon felt relieved of all backache and had no more pain and I hope others troubled in the same way will try this wonderful new remedy. Yours, Miss LUCY STEARNS, Route 1, Mendville, Pa.

NOTE: It is now asserted with confidence that these painful effects due to uric acid in the system are entirely eradicated. A new remedy called "Anuria," has been discovered by Dr. Pierce, and is the cause of a drainage outward of the uric acid, which it comes in contact with the body. It will ward off backache, headache, and the darting pains and nerves of uric acid or muscular rheumatism. These diseases which are caused by too much uric acid, such as gout, asthma, sciatica, renal calculus. "Anuria" promotes life because it keeps the body free from uric acid and the uric acid is excreted in the urine. It is a powerful and effective remedy for the relief of over-worked and weakened kidneys. The relief obtained by sufferers has been so satisfactory that they determined to place "Anuria" with the principal druggists in town where people could get this ready-to-use medicine. "Anuria" is not harmful or poisonous, but its nature in throwing off these poisons within the body which cause so much suffering, pain and misery. Science has discovered that uric acid is more potent than lithium.

For Diabetes and Bright's Disease this remedy is best. It is a powerful and effective medicine which have been proven reliable during nearly fifty years, such as Doctor Pierce's "Anuria" is a powerful and effective medicine for the relief of uric acid, the liver regulator, and Doctor Pierce's Golden Medical Discovery for red blood.

PRITTSVILLE.

BARREN WASTES AWAIT THE BOYS OF COMPANY D

Continued from Page One.

at Mount Franklin, about one mile from Fort Eliza and three miles from El Paso. The location is right in the Texas desert and there is no vegetation either on the camp grounds or in the mountains, except various kinds of cactus and sagebrush. There is a fine road leading past the camp grounds and street cars are not far distant.

From camp we can plainly see into Mexico which is only about a mile distant. There are two wireless towers, one in Mexico and the other in Texas, about that distance from camp, but we have a good way from the International bridge at El Paso. It was a magnificent sight last night to watch the big searchlights of Uncle Sam playing along the border. They are immense and illuminate the border for miles when thrown in that direction.

All along the railroad for 100 miles out of El Paso may be seen little groups of soldiers patrolling, their hair-dressed little tents looking, mightily lonely perched here and there. The Texas & Pacific railroad which we came in on is not far distant from the border and the soldiers keep close to the railroad. At the watering places along the railroad there are a considerable number of soldiers on guard, and at some of them forts have been erected, with machine guns and bags of sand for protection.

The boys all stood the trip well, none of Company D boys or the hospital corps having any serious trouble. Arch McCormick, with the hospital corps, was laid up for a couple of days with the anti-cyphoid administered on the train, but he is in good shape now. A part of the Tenth arrived shortly after midnight, the second section just before noon and the last section did not get in until afternoon. After detouring the boys had a march of a little over a mile from the railroad through Fort Bliss to their camping grounds and got a good sample of what they will have to contend with in this section. Although the heat was intense every man completed the march in fine condition, a test which showed what the conditioning at Mount Grenier did for the men.

The outlook here is anything but encouraging to the men. They believe it would have been impossible to have picked a worse camp site. There is not only cactus and sagebrush to contend with but the ground is so stony that it is next to impossible to drive tent stakes. In addition to this, the wind is so high that it wants to tear the stakes out as fast as they are driven in. They have resorted to tying them down with big stones after staking them as best they can. Probably things will be better though when the boys get a little used to conditions and the weather.

After spending a day here it does not strike one as if Uncle Sam was as unprepared for war as some people would have us believe. There are thousands of soldiers camped in every direction, hundreds of large auto trucks always on the go, a few armored autos with machine guns and much small artillery, in addition to cavalry.

El Paso is a widely scattered city. Some of its houses are of pretty architecture, but without the pretty lawns and gardens of the East which go so far in making the ideal home. There are numerous factories of various kinds, and the lumber business and building generally seem to be booming. The officers' quarters of the regular army stationed at Fort Bliss are pretty and permanently built houses. On our march to camp we passed the officers' club which was destroyed during one of the border raids, supposedly by Mexicans while the officers were in attendance at a ball. It was a magnificent structure, but there is little remaining to testify to its former beauty.

We expect to have our new camp in fairly good shape by evening, but the boys are wondering how the night will go on this hard, stony ground after such a recent conquest of the soft cushions on the train. They will get by all right, I guess, if the wind doesn't blow their homes away. The regulars have board frames for their tents with the canvas stretched over them, which is a very satisfactory arrangement.

Now that the boys are located again, they are expecting an abundance of letters from home, which will sure be appreciated, as none have had any mail since last Saturday. Our present address is 10th Pennsylvania Infantry, Seventh Division, El Paso, Texas.

The Modern Spirit of Banking. It is very evident that banking has changed very greatly during the past quarter of a century. There is a new spirit in banking. James L. Kurtz, cashier of the Citizens National Bank, says: "While this bank has retained all of the former safe-guards of banking, it has adopted the modern spirit and it is a liberal banking institution, offering every facility to its many customers." The bank is located at 1888 North Pittsburgh street.—Adv.

YOU'LL O. K. THIS CHEW AT FIRST TRIAL

Wonderful Flavor of "American Navy" Has Never Been Equaled

PUTS MORE JOY INTO CHEWING

There's a wealth of wholesome comfort and satisfaction in a chew of good plug tobacco. It promotes digestion and coaxes the whole system into a state of healthful activity. Plug tobacco is the most natural form into which the rich leaf can be made.

One chew of American Navy plug is enough to get your O. K. Such rich, savory flavor you never tasted before—such sweet, juicy enjoyment you never found in any other chew.

In "scraps" you get only part of the leaf—part of its richness—part of its sweet, mellow flavor.

But American Navy plug is made of the whole leaf, pressed close so that all its richness and sweetness is evenly distributed through every chew. American Navy is made of choice tobacco leaf selected with painstaking care for full juicy richness.

And the factory in which this leaf is pressed into savory plugs is sweet and clean and sanitary.

Big, luscious cuts for 5c and 10c.

LECTURER HAS STUDIED CHINA FOR 25 YEARS

DR. FREDERIC POOLE.

DR. FREDERIC POOLE, who will lecture on "An Afternoon in China" on the second afternoon of the Chautauqua, paid his first visit to the most ancient of all empires more than twenty-five years ago. Since that time he has been a constant student of China—has traveled in every section of the country—and has studied the nation from the standpoint of a physician, as well as a scholar and traveler. Appearing in the richly embroidered robes of a mandarin, a costume that is no longer in use, Dr. Poole will tell of the recent changes that have taken place in the life, customs and government of the Chinese people. He will show that the revolution in China was the most portentous national upheaval in history and is destined to affect every civilized land during the next century. He will prove that America was largely responsible for the Chinese revolution and that the history of Dr. Sun Yat Sen is a repetition of the achievements of Washington.

Dr. Poole is considered an authority on the Chinese language as well as customs and manners, and in the course of his lecture he will illustrate the curious and logical formation of the pictorial words that constitute the strangest speech ever used by man.

It's Wonderful How Resinol Stops Itching

To those who have endured for years the itching tortures of eczema or other such skin eruptions, the relief that the first use of Resinol Ointment and Resinol Soap usually gives is incredible. After all the suffering they have endured and all the useless treatments they have spent good money for, they can't believe anything so simple, mild and inexpensive can stop the itching and burning INSTANTLY! And they find it still more wonderful that the improvement is permanent and that Resinol really drives away the eruption completely in a very short time. Perhaps there is a pleasant surprise like this in store for you. Resinol Ointment and Resinol Soap are sold by all druggists.

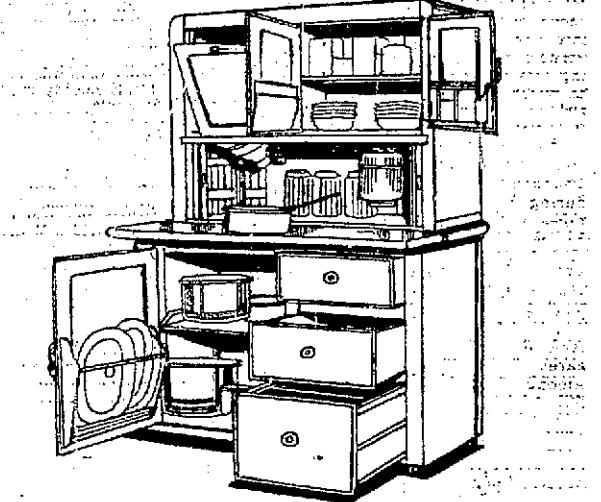

A Good Soap for Baby Skin. A good baby soap should contain soothing, healing properties to protect the tender skin of infants from the effects of the weather and to keep the baby's skin soft and healthy. That is why so many physicians recommend Resinol Soap.

ALUMNI TO MEET. Officials' Rather Mysterious, But Say Matter is Urgent.

A rather mysterious meeting of the Connelleville High School Alumni Association has been called for Friday evening at 7:30. President John Dugan, Jr., and other officers declined to explain the business at hand other than to say that it was very important and so much so that graduates of the high school who are not members of the association may attend.

The notices being sent out for the meeting urge the presence of all the members. The session will be held in the high school chapel.

Constipation and Indigestion. "I have used Chamberlain's Tablets and must say they are the best I have ever used for constipation and indigestion. My wife also used them for indigestion and they did her good," writes Eugene S. Knight, Wilmington, N. C. Chamberlain's Tablets are mild and gentle in their action. Give them a trial. You are certain to be pleased with the agreeable laxative effect which they produce. Obtainable everywhere.—Adv.

WIFE TOO ILL TO WORK

IN BED MOST OF TIME

Her Health Restored by Lydia E. Pinkham's Vegetable Compound.

Indianapolis, Indiana.—"My health was so poor and my constitution so run down that I could not work. I was thin, pale and weak, weighed but 109 pounds and was in bed most of the time. I began taking Lydia E. Pinkham's Vegetable Compound and five months later I weighed 133 pounds. I do all the house-

work and washing for eleven and I can truthfully say Lydia E. Pinkham's Vegetable Compound has been a godsend to me for I would have been in my grave today but for it. I would tell all women suffering as I was to try your valuable remedy."—Mrs. WM. GREEN, 332 S. Addison Street, Indianapolis, Indiana.

There is hardly a neighborhood in this country, wherein some woman has not found health by using this good old-fashioned root and herb remedy.

If there is anything about which you would like special advice, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

Bring Smiles

New Post Toasties were perfected to overcome the defects of old-style corn flakes. And the hearty welcome they have received is ample proof that their superiority is recognized.

New Post Toasties have a self-developed, inner-flavor—the rich flavor of choice Indian corn. Try a handful dry—they're mighty good that way, and the test will prove that, unlike common flakes, they do not depend on cream and sugar for their palatability.

New Post Toasties do not "chaff" in the package, and they don't mush down in cream like common corn flakes. The New Post Toasties are identified by tiny bubbles on each flake—produced by the quick, intense heat of the new process of manufacture, which also develops their wonderful new flavor.

Have your grocer send a package for tomorrow's breakfast.

July CLEARANCE

Little Talks—Big Bargains—Great Values—Incomparable Prices

Most gigantic clearance sale started today at 9 o'clock. Our record-breaking business for the half year past has left in its wake extraordinary accumulations of all kinds of most wanted merchandise amounting to thousands and thousands of dollars, which must be sold now at a fraction of their worth, as quick clearance is the object of this sale and broad and sweeping price reductions will do it. Read every item and come, as in many instances you can't begin to even get the faintest idea of the real bargains, if you judge solely by the ridiculous price at which it is offered.

The clean-cut, decisive price reductions; the honest, truthful values presented; the absolute assurance of dependable quality in all the goods offered, and the genuine economies presented—these are factors which combine to make our clearances far more important than ordinary sales.

Every inch of "THE BIG STORE'S" selling space is occupied by some especially attractive underpriced article, that spells S-A V-I-N-G-S for you.

**SCOTSDALE COUNCIL
VOTES DOWN MOVE
FOR A FIRE HOUSE**

Members Decide Against Expending Money for the Second Ward.

HOTEL MAN OBJECTS TO NOISE

Too Much Whistle Around the Mill and Railroad. He Says: Another Meeting Will be Held to Discuss Changes at the Lockup; Other News.

Special to The Courier.
SCOTSDALE: July 12.—After a lengthy discussion over the matter of fire equipment the Scottdale Council voted down, by a vote of 8 to 4, a motion by Commissioner Arthur Collins to erect a fire house in the Second ward. During the discussion the centralization of fire equipment and purchase of motor trucks was discussed, but nothing was done.
Persons along Chestnut, Emerson and Fourth avenues, and Broadway, who have failed to comply with notices to lay sidewalks are to be reported to council and the borough will do the work.
The secretary was instructed to notify the Bell and Tel-State telephone in repair. A new Bell phone was ordered to be kept the police light system in the Scottdale mill of the American Sheet & Tin Plate Company for fire purposes. Complaints were made by P. J. Maloy, proprietor of the Kromer House, that his guests cannot sleep on account of the blowing of whistles on the engines in the furnace yard and also that the engines on the Pennsylvania railroad make an unnecessary amount of noise. Two receipts for last month in the borough treasury reached more than \$2,000. Charles Meyer represented the fire department and asked for \$100, and this was granted. Instead of going to the convention this year, they will buy coats, caps and boots for those who do not have them. Council will meet again tonight to discuss changes to the lockup to conform to the state law.
ENTERTAINMENT. W. C. T. U. Mrs. Mary Williams entertained the W. C. T. U. at her home here last evening. Following a short business meeting the following program was carried out: Solo, "Somewhere a Voice is Calling," Earl Gordon; Miss

Violet Agnew and Mrs. Helen Trull gave "Children in the Making." Miss Adrian Browning played a piano solo, Miss Violet Agnew sang "In the Valley of Dreams." Miss Lucille Porter played a piano solo; Miss Esther Agnew recited "The Surprise Party." Mrs. Michael of Connelville spoke on "The Advance of the Temperance Movement." Mrs. Henry S. Thompson of Pittsburgh then spoke of the Edgewood home refreshments were served and a pleasant social hour followed. Mrs. George Gordon will entertain the W. C. T. U. at their next meeting.

TALKING CONVENTION.
The following committee has been appointed to look after getting the Emerson fire department to the convention at Clearport on August 10: Chief Emanuel Wall, Assistant Chief G. Corrado, President O. N. Davis, I. W. Shaffer, James W. Keegan and Robert Gove. Emerson expects to have 100 men in line in the big parade.

FARMER UNDER BAN.
At a meeting of the Board of Health following the dairy inspections by Health Officer Frank Goshorn, one dealer was refused license to sell milk from a certain farm. Twenty-seven farms where milk comes from were inspected and nine dealers had their licenses inspected. The man who has no sale for his milk following last year's inspection, was given a hint to clean up, but took it for granted that the inspection did not amount to anything and was surprised when he was refused license to sell his milk.

FOR SALE.

P. B. Folk was a business caller in Greensburg yesterday.
Christ Makist of Pittsburgh street was admitted to the Memorial Hospital Monday for treatment for pleurisy.
Miss Lida Barkell and Miss Anna Vallance have gone to spend two weeks with friends at Lillydale, N. Y.

Service First

WHEN Alexander Graham Bell first exhibited his crude telephone invention at the Philadelphia Centennial in 1876, the whole world hardly paused to ridicule.

And then began the struggle! From a mere handful of telephones in 1890, with long distance service still behind the horizon, the Bell System has been developed no less by money and hard work and brains than by the sheer worth and merit of the service itself.

To-day, with a network of copper highways spreading over the land and serving upwards of nine million telephones, that same spirit of Service First is the guiding influence of one hundred and sixty thousand employees—men and women, both, whose constant striving it is to carry the real spirit of service down into their smallest every-day tasks. To them, no task is too difficult if it spells Service.

On that spirit of Service First the public may place its reliance. It means, before all else, that gladness to serve which is—after all—the sum and substance of successful endeavor.

FOR U. S. STEEL

Allegheny Tract Said to be Purchased for Big Corporation.
The rumor that the 320 acres of bottom land between Allegheny and Stockdale on the Monongahela river had been purchased by the Pittsburgh Steel Company is denied. It is now asserted that the property was acquired for the United States Steel Corporation.

A number of years ago part of the land was bought by the late S. M. Graham of Uniontown and Joseph S. Jones of Belle Vernon and others, who organized the Ramona Land Company, took steps to organize a company to erect an iron mill on the site. The project died out and ever since there has been frequently recurring rumors that the land was to become the site of mills of some kind.

Taking Big Chances.
It is a great risk to travel without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as this preparation cannot be obtained on the trains or steamships. Attacks of bowel complaint are often sudden and very severe, and everyone should go prepared for them. Obtainable everywhere.—Adv.

Facts Versus Fallacies

FACT is a real state of things. FALLACY is an apparently genuine but really illogical statement or argument.

THE difficulties—and the added expense—consequent to seeing that the law is upheld in those portions of the country where "dry" laws are in force, is well exemplified in Kentucky. For in certain portions of that State not only are the United States Revenue officers unable to cope with the moonshine situation, but can count on no help from the local authorities.

THE following from the Louisville Times gives the situation in a nutshell, and shows the rapid increase of illicit distilling in certain portions of Kentucky. Says the Times:

"MOONSHINING is on the boom in local option territory in Kentucky, particularly in the eastern portion of the State, where coal development is flourishing. This fact is being reported to the Commissioner of Internal Revenue at Washington by B. B. Bouldin, local revenue agent, who said his men informed him that illicit distilling is increasing at such a rapid rate all over the State that extraordinary measures will have to be adopted to meet the situation.

"AND I do not believe that the Government can put enough men in the field to cope with the situation at that," Mr. Bouldin stated. "In order to check this increase in illicit distilling the people and officers of this State and the counties where the licensed sale of liquor has been voted out will have to co-operate with the Government to check the spread of this particular brand of lawlessness.

"IN almost every county where local option prevails," Mr. Bouldin said, "the county and State officers have shown a lack of vigilance in dealing with illicit distilling and evidently expect Government revenue agents to police their territory. We haven't enough men to do this without the co-operation of all the people, and the sale of moonshine whisky increases as a result. We shall continue, of course, with our limited force of agents to check this thing, but it increases in spite of all measures we have taken."

ONCE more is proven what has been said, over and over again, in these articles: that it is a FALLACY to say that Prohibition prohibits, when it is a FACT that all it does is to prevent the legalized and regulated sale of liquor.

At the Theatres.

SOISSON THEATRE.

"THE THREE GODFATHERS"—The popular actor, Harry Carey, appears at the Soisson Theatre today, in the five reel Bluebird picture, "The Three Godfathers." It is a masterpiece of sympathetic tenderness and human interest. See the terrifying sandstorm in the Mojave desert taken in actual scenes on the spot. Mr. and Mrs. George Cushing left their home in Iowa at an eventful period in the hope of reaching the west before an important pending event should transpire. They had arrived at the Mojave Desert and were camping in their primitive "paddle schooner" when they were overtaken by a sand storm. The boat was unbalanced from the wagon and fell to pieces, the three desperadoes, locked by the sandstorm, obliterated their trail. The yeggen came upon Cushing's wagon and brief investigation developed the fact that Mrs. Cushing had just brought into the world a baby. Her own death directly ensued. The three desperadoes, touched by the remarkable circumstance, decided to stand by the baby and to take it, if possible, to a settlement where it might be properly cared for. The story originally appeared in the Saturday Evening Post and was pronounced by the editor of that great weekly to be the best narrative that had ever been printed in the Post. When one considers just what that means, as applied to this unfulfilling front of good fiction, it may readily be understood that the photograph of unusual interest may be rightfully expected in "The Three Godfathers."

"THE HUMAN CACTUS"—A Laemmle two reel society drama featuring Rupert Julian and Lillian West. It is the story of a sociologist who takes a girl of the slums to educate. She is rescued and substituted at first for a family blossom into a beautiful woman. They return her to her old life but she cannot endure it and later she marries the doctor. "Twice at Once," is a Big-U comedy with Ernie Shields. Can a young man become engaged to two ladies at once? See it today. "Sammy Johnson, Magician," a Powers split reel comedy cartoon. Sammy has a dream about the power of magic. "Tomorrow's Path," a comedy picture. Pearl White in the thrilling serial, "The Iron Claw."

GLOBE THEATRE.

"A CHILD OF FORTUNE"—A three part Knickerbocker star feature, presenting Frank Mayo, Lillian West and others. Is the attraction today. Janet Ormsby's automobile sears her home of David Carson, a young philanthropist. That evening she lies in on time no sweetheart's home and is thrown. Carson returning home stops the runaway and helps Janet to her feet. It is a lady she pretends to be hurt and takes her to her home. They later become sweethearts and when they quarrel Carson leaves to take up his work among the poor. Janet, now a woman awakened, determines to prove by his example and takes up charity work. She rescues a girl named Nora from the clutches of a gangster, who later inveigles the settlement house and forces Nora to go with him. Janet again rescues Nora and tries to make her take hold on life. Janet goes to live with Nora. The girl again backslides and falls into the hands of the gangster, who forces her to tell where Janet is. The gangster attacks Janet in her room and Dr. Carson arrives just in time to save Janet's life. They later marry Friday (John Barrymore) will be seen in "The Red Widow," a thoroughly amusing, picture production of the celebrated comedy by Channing Pollock and Edmund Wolf. John Barrymore possesses the greatest opportunity he has ever had

since becoming a photoplay star, the dominating beyond all doubt right to be called the foremost comedian of the screen today. Mr. Barrymore is a thoroughly humorous, in the depiction of his characters and his facile ability to clean himself in the eyes of the government and port principally his wife, who herself believes that Butts has deserved her for the "Red Widow."

ARCADIE THEATRE.

"HYPOCRACY"—An expose of the sham of society with Virginia Pearson playing the part of Virginia Trent, a debutante, whose mother lives beyond her means and insists upon her daughter making a wealthy marriage. There are two suitors, Walter Pembrey and Tillet Hutchins; the latter favored by the mother, but Virginia marries the one she loves, who is practically a ruined man on a wedding day.

Ernie Shields and his bride star, now looking in a modest way, but big picture and other expensive amusements, are her in debt. It is old story, Hutchins, in an effort to obtain control of 20 per cent of a railroad stock given by her husband offers to loan her money. She declines and Hutchins later to her mother, asking that she help him win the daughter.

Finally harassed by debts which he cannot pay, Virginia's father offers to sell the railroad stock. Hutchins and in doing so is compromised her husband entering and watching the check from her hands without knowing for what it was given. She leaves her home and in trying to block the attempts of Hutchins to further ruin her husband is again compromised. Finally at a point of a revelation, she forces Hutchins to sign a confession and is reunited with her husband. The block of stock that caused all the trouble is returned to her and becoming of the demand for it, makes them wealthy.

Illnesses and Stomach Trouble.
"Two years ago I suffered from frequent attacks of stomach trouble and biliousness," writes Miss Emma Verbyke, Lima, Ohio. "I could eat very little food that agreed with me and I became so dizzy and sick at my stomach at times that I had to take hold of something to keep from falling. Sealing Chamberlain's Tablets advertised I decided to try them. I improved rapidly." Obtainable everywhere.—Adv.
